Museum of Discovery and Science and Carnival Corporation Present Ocean Rescue Rangers in Summer 2018

Fort Lauderdale, FL, July 11, 2018 – Museum of Discovery and Science has created a new coral reef presentation “Ocean Rescue Rangers” that visitors can enjoy daily at 11:15 a.m. & 12:15 p.m. in the Keller Science Theater through August 10, 2018. “Ocean Rescue Rangers” will help visitors to understand more about the coral reef food web, the animals that call it home, and how you can protect it. This new addition to the Museum’s Coral Reef Explorers program was made possible from support by Carnival Corporation & plc.

Visitors can also see demonstrations at the Carnival Cart for a “Science Bite” to view some of the Museum’s specimens and maybe even get up close and personal with our Touch Tank residents.

Museum President and CEO Joseph P. Cox said, “Families can learn all about the coral reef ecosystem in our new exciting program Ocean Rescue Rangers. We are thankful for Carnival Corporation’s support that has allowed us to offer this new experience to our visitors.”

“Carnival calls the ocean home, and we’re excited to support the new Ocean Rescue Rangers presentation that will teach museum visitors about the importance of protecting our coral reefs,” said Linda Coll, executive director of Carnival Foundation, the philanthropic arm of Carnival Corporation. “Through a variety of initiatives, our relationship with the Museum of Discovery and Science allows us to connect with children of all ages, and we are grateful for this new opportunity.”
